A Word from the President:

When God decides to glorify Himself, He chooses the most humble among us and does great things through her/him. Faa is one of those humble servants of God. I praise God for using her in the last several weeks to raise prayer and financial support for the rescue work we are doing in northern Thailand. For all of you who welcomed Faa and opened doors for her, a big thank you from the bottom of my heart, and I know I speak for the whole G.R.O.W. Board when I say this. Soon, you will be able to hear more about what God is doing. Our hope is that Faa will be able to acquire a truck soon. We also would like to see our children move to a better home before the end of the year. You will read Faa talking about her dream of having an art room in the G.R.O.W. home. We also would like to provide her with some computers and other teaching tools. Please help us if you can.

May God bless all of you for your great investment in this ministry.

For the least of these,

Pastor Ivanildo C. Trindade

G.R.O.W. President

Dear Friends,

How do I say how hard it was to leave all my kids back and be so far away overseas for seven weeks? I was thinking about them all the time, many days, many times, especially since I left when my sister was still sick? Leaving those little ones whom I love and care about so much was so hard but at the same time it was exciting to see so many friends in the States and to share about how God is working and what He has done for our life by His Love and care for us. I was so blessed to share how God has met the needs and brought healing to my children's heart and soul His grace alone.

I can't believe how the time flies so fast each day and I feel like each day not enough time for me to be in States with sisters and brothers in Christ. I would like to thank you so much for each of you who hosted me so well while I visited with you and opened the doors for me to find support in prayers and finances. By God's grace, this has been a successful trip and I praise God for that.

Thank you for warm welcome me to each of your churches and your home. I appreciate so much and Praise God for the answers of my prayers to put me with the right people who love God and allow me to learn so much. I had such a great experience I never have before by your love to me and I won't be forgetting that even something that appears very little but it is very big for me.

Even my time seems very busy for visiting and hard from me when I heard my children sick and have fever I can't do anything I can only "PRAY and KEEP IN GOD'S HAND" in all the situations. I have been to Skype to talk to my sister and my children almost every week on the weekend, I still feel REALLY, REALLY HOME SICK after I talked to them and I wish I can hug and play with them like I did all the time.

When I am in States I missed one of my girl's Birthday and what she said to my sister, when I heard it, made me cry. She said, "This year is my 6 year old. I have learned to have more responsibility and I don't want to have anything for myself. If you don't have money for G.R.O.W., you can take from my little box I save each day for tithing." My sister said she has been working with children for 7

years she had never meet any children with such good heart for others like her and this made her very proud of my girl as well.

And I got good news from my sister about my little girl youngest one and my little boy. They both got the no.1 in school for art painting in their class. I was happy and very proud of them both and I know that they have really improved from the first time they came and day after day Jesus Christ is healing them. I would like to say many thanks for the art supplies we got for activities for my children. My dream is one day to have a room in the G.R.O.W. home totally dedicated to art activities. Perhaps you could help me make this dream become true? That would be great and awesome for us.

I was excited and happy to be back again with all my children. We have great time together and fun and fun, all the children told me many stories and of course I have to take time with each one to listen and focus even if my brain so tired from my time in US and the return trip. Now they are all in vacation from school and we went back to the village for visiting. All my children they bought some gift to their relatives and I was happy to see how my kids' hearts so beautiful. I see that some of my kids' relatives are better and good health and working hard to understand children. They are so happy to see their children so much and I do love the children like my own children so much.

We went to one village and they have a funeral for a man who died because he drank too much alcohol. It was a good teaching moment for my children. The way up to my village is bad and several roads can not travel easily because of heavy rain and damaged a lot. I had a very good time with my dad and my step mother, also was happy that my dad's sister he had not seen for three years came to visit him. It was confusing but funny because they spoke Chinese but we all had a good time.

Please pray for my dad who has been very sick. Please pray for us for we can move to new place and have the right truck for ministry of G.R.O.W. as God provides and leads. May God bless you one and all and I pray God will provide to all your every need, may you be healthy and May Jesus answer your prayers according to His will.

The sake for Children,

Faa Sumitra Choemue
